

Introducing Internet relay calls

Internet relay calls are ideal if you are deaf or can't hear well and have difficulty using your voice.

To make a call, all you need is an internet connection – through a computer or mobile phone. You can even do it via instant messaging.

So now, you can easily communicate with anyone, wherever you are, 24 hours a day.

To find out how to make a call, go to www.relayservice.com.au
