

Did you know you could be having a phone call with me?

“Losing my hearing and my wife at the same time was terribly traumatic. But the NRS has helped with the isolation and made me feel more capable.”

In his 80s, Bill went deaf almost overnight. It coincided with his wife's illness and subsequent death. Thanks to the NRS, Bill has stayed independent and still lives at home. He regularly uses the NRS to phone his kids and grandkids, make doctor's appointments and pay the bills.
